SCHOOL DISTRICT OF ALEXANDRIA

REPORT OF SUPERINTENDENT OF SCHOOLS To the School Board of the Town of Alexandria:

I submit, herewith, my annual report as superintendent of schools. In the attendance table for 1930-31 I have added the totals, averages and aggregate figures for the previous year for the sake of comparison.

May I call your attention to the number of pupils in the eighth grade? Every one of these pupils have signified their intention of going on to high school. As near as I can estimate twenty-three hundred dollars will be needed to meet tuition costs next year.

Since the opening of school and the organizing of the work for the year, my work has been chiefly the giving of reading tests, from the third grade up through the eighth grade. I did this to determine the ability of the children to get the thought from the printed page, and to find the speed or number of words read per minute.

The results of these tests in most every instance show that the pupil who reads below the required rate for the grade did not reach the comprehension score for the grade.

In short conferences with each teacher the pupils' papers were looked over and remedies suggested to be used in bringing the pupils up to the required level in rate and comprehension.

As an aid to increase the ability of the pupils in the lower grades to read silently, work books to accompany the readers in these grades have been given each pupil.

Careful supervision of this phase of teaching reading on the part of the teacher I'm sure will soon begin to show the desired results.
